SAAB SERVICE CAMPAIGN NOTICE

Service Campaign 518
All 1986 900 Convertibles

Dear Saab Convertible Owner,

Saab-Scania of America, Inc. is conducting a service campaign for the purpose of upgrading the inner door panels of 1986 Convertibles to a newer design. Our records indicate that you are the owner of a 1986 Saab Convertible.

Some splitting of the door panel plastic skin has been discovered along the upper sill and to prevent the possibility of this happening to your car, new style panels are being made available. This is not a safety recall.

Supplies of upgraded inner door panels will be very limited at the start of this campaign. We suggest that you call your Saab dealer and reserve new door panels in your name. It is planned that adequate quantities of panels will be available to begin repairs in April and complete all cars involved by mid-June. Please make arrangements with your Saab dealer to contact you to have the work performed without delay once the parts have arrived. If your dealer has already ordered new door panels for you, be sure to let him know you received this notice. Henceforth all panels delivered will be the new style, identified by a leather covering above the velour insert.

There will be no charge to install the new door panels under this campaign. The work will take less than an hour to complete.

Thank you for purchasing a Saab Convertible. If you have already experienced door panel problems, we appreciate your patience. If damage has not yet occurred, we nevertheless urge you to contact your dealer about this product upgrade offer within the next 90 days.

Sincerely,

National Service Division
Saab-Scania of America
